- 13- A standard poodle can live 15-16 years or longer, are you committed to a puppy for this length of time and throughout his/her lifetime for whatever illness, injury, etc. may occur (while I will always take back a puppy for any reason).
- 14- All of our pet puppies are sold with a spay/neuter agreement, meaning that you are required to spay or neuter the puppy around 6 months of age. Spaying and neutering are very important for a variety of reasons. So do you have any questions concerning this requirement?
- 15- If you are interested in a show puppy, please describe your experience in conformation showing, list any past champions, and explain why you are interested in a Cashmere puppy for showing. While we rarely sell a show puppy for a variety of reasons, if we do sell one it is with a co-ownership agreement until the puppy has complete his/her championship and genetic testing, after which we are willing to sign off. Do you have any questions concerning this practice or any other questions concerning show puppies?
- 16- We require references before selling any of our puppies, including a veterinary reference if possible. Can you please list 3 people with telephone numbers (including you veterinarian if possible) you would like us to contact as a reference?
- 17- Finally, please list any questions you may have that are not covered in this questionnaire or on our website. We would be happy to answer them.
